Share Your Trash, Build Your Community

Brieanne Berry, Ursinus College

Nov. 15 marks the 22nd annual **America Recycles Day**, a day focused on educating and motivating Americans to recycle more effectively. Yet with all of the recent disruptions to recycling markets it can sometimes feel as though we are out of good options for managing our unwanted materials. If the future of recycling seems bleak, perhaps today we might turn our attention to another strategy highlighted in our solid waste management hierarchy: reuse.
